ABOUT THE AUTHOR

Pravinchandra J. Patel is a member of the New York State Bar, and the American Immigration Lawyers Association. He is also a member of the Bars of the Federal District Courts for the Southern and Eastern Districts of New York and the United States Supreme Court.

THE WHOLE ACT-INA 2008-2009 Edition

The revised and updated 2008-2009 edition of "The Whole Act" contains all the new statutory provisions enacted recently; the provisions that amended any section of the INA are incorporated in the INA text itself, and those that stand apart but are considered significant or important enough for the immigration bar are included as Appendices. This updated edition thus includes more than 435 annotations and editorial notes, 744 footnotes, 50 appendices with some additions to or changes in the existing appendices, a comprehensive topical index, a separate index to appendices, and a separate index to U.S. Supreme Court decisions. All these are specifically prepared to make the book extremely user-friendly. What makes this book stand out among the crowd are two absolutely unique features: Annotations and Digests of U.S. Supreme Court Decisions.

BOOK OUTLINE

Annotations:

Many provisions in the INA make references to other INA sections or to various other statutory provisions or USC titles. These references often cause inconveniences on the one hand and aggravation or frustration on the other, for the reader will frequently find it impossible to derive some intended meaning of the INA text without reading any referenced provision and tying it to the INA text. Now, this task is made fairly instant by including annotations throughout the text. Of course, the annotation material is merely intended to provide a gist or a succinct summary of the referenced provision. By its nature, it is not and cannot be expected to be a full reproduction of the referenced provision. In order to keep the bulk of the book manageable, we have not annotated any provision if the same provision was already annotated earlier and may be found in close vicinity-just 2 or 3 pages up or down, or if, in our judgment, it would not serve any useful purpose. However, such omissions are assuredly few and far between.

Digests of U.S. Supreme Court Decisions:

Frequently busy immigration lawyers find it useful, occasionally even necessary, to have a relevant U.S. Supreme Court decision on a topic of immediate interest. To try to dig through a source to find a relevant decision obviously takes a long time, and even then to read the entire decision to determine whether or not one would cite it in a legal brief or memorandum, is indeed a time-consuming task. To make the professional life of members of the immigration bar relatively easy and smooth, brief digests or holdings of all relevant U.S. Supreme Court decisions since 1952 have been incorporated and placed each one under appropriate INA provisions, in the new edition. Furthermore, a number of Supreme Court rulings could not be properly placed under any particular INA provision. They are therefore added as a separate segment in this edition and can be found as "Non-INA-Related U.S. Supreme Court Decisions," which covers as many as 27 topics, and incorporates all such decisions under each relevant

topic. And, finally, to make its usefulness more comprehensive, a separate Index to all Supreme Court Decisions is added at the end.

The user will enjoy and appreciate these novel features, which make this publication quite unique.

TESTIMONIALS

"There are several available versions of the Immigration and Nationality Act. I subscribe to most of them. For over 15 years, however, I have thought that Patel's version, called *The Whole Act*, was the best of the bunch. I heartily endorse it. It is easy to read. It is intelligently annotated and indexed. And in 15 years so far I have never caught a mistake. Buy it, and use it every day."-- Bruce Hake

IMIGRATION PRACTICE 2008-2009 Edition

By Robert C. Divine & R. Blake Chisam

Immigration Practice 2008-2009 covers all aspects of immigration law in one volume, complete with over 3,000 footnote citations to the wide range of statutes, regulations, court and administrative cases, policy memos, operations instructions, agency interpretive letters, and internet sites that a lawyer needs for complete understanding of a particular problem. No other source merges the practical with commentary and analysis so helpfully.

Immigration Practice explains in understandable language and meaningful and dependable detail the substantive issues and the practical procedures a lawyer needs to handle a specific immigration matter, complete with checklists of forms, documents and types of evidence needed for application/petition packages.

- Liberally cross references to other sections in the book where related topics are discussed (because so many topics are interrelated).
- Provides line-by-line instructions on how to complete the most commonly used forms to avoid embarrassing mistakes.
- Contains comprehensive charts of detailed contact information for the officials in the many government agencies administering immigration laws, some of which are not available anywhere else, including INS' reorganized regional and district offices, Immigration Courts, consulates throughout the world (with country-unique rules), labor department regional offices, state employment and prevailing wage specialists, suppliers of country conditions information for asylum claims, au pair programs, and more; (such as Internet sites, and au pair agencies)
- Organizes explanations of potentially applicable visa options according to the attributes of the alien (and the employer), rather than the classifications in alphabetical order, so that practitioners can make sense of options in light of the client in the office.
- Compares and charts attributes and procedures of such topics as nonimmigrant visa classifications, procedures to permanent residence, and standards of "extreme" hardship. - Cites the most useful Internet site URLs with explanation of the increasingly helpful free databases and tools available through each one.
- Is edited and completely updated each year with the latest developments in all areas of immigration law.

What's New in Immigration Practice 2008-2009 Edition

- Constantly increased and updated links to government web sites containing current contact information, forms, primary law sources of all types, case status information, and processing and substantive guides—all referenced by pinpoint citations in the text. See Chapter 5 explaining sources of law, Appendix C and D-1 showing web links, and the CD-ROM in the back cover providing one-click access!
- Analysis of the Labor Department's new PERM rules, with tables showing how and where they change labor certification practice.

- Step-by-step instructions for completing DOL's Form ETA 9089, which was introduced with the PERM program and which is completed and filed on-line.
- Analysis of REAL ID Act of 2005 and its impact on removal proceedings, asylum applications, judicial review and business immigration cases.

Robert C. Divine serves as the Principal Legal Advisor to the U.S. Citizenship and Immigration Services bureau of the Department of Homeland Security. His clients included multinational corporations, medical, financial and academic institutions, information technology providers and users, foreign investors, manufacturers, and individuals from many countries. He had been an active member of the American Immigration Lawyers Association since 1986 and has authored numerous bar journal and other articles on immigration law. In early 2004 he served as an expert for the U.S. Commission on International Religious Freedom evaluating the impact on asylum claims from DHS' implementation of expedited removal procedures.
